Content

Digital transformation is a journey, not a destination.

Overview

What is Digital Transformation?

Why is Digital Transformation Important?

Mobile Service

Digitalization of the routine maintenance process

Chevalier Connect

Remote Monitoring & Diagnostic System

What is Digital Transformation?

**Integration of Digital Technologies into
Business Processes**

**Transforms Operations,
Customer Experiences,
Decision-Making Process**

Creating a Digital Culture

**Focus on Innovation and
Future-Readiness**

Why is Digital Transformation Important?

- Improves Efficiency & Productivity
- Elevates Customer Experience
- Drives Innovation & Agility
- Enhances Visibility of Workflow & Data
- Scalable Operations
- Promotes a Culture of Continuous Improvement

Mobile Service

Recognizing the fast-paced changes brought by digitalization, our company saw the need to **embrace a digital culture**.

With support from the **NTUC**, **e2i** and **AMEU**, we secured the CTC grant to **digitalize our routine maintenance process**, marking a continued step in this journey.

Evolution of Mobile Technologies

Cloud Computing

Mobile Service Journey

Conventional Routine Maintenance Process

- Inefficient in Updates and Revisions
- Environmentally Unfriendly
- Limited Accessibility with Huge Footprint
- Onerous Information Management
- Prone to Loss / Mishandling
- Lack of Real-Time Tracking of Processes

Digitalized Routine Maintenance Process

Specialist

- Send e-checklist to back office & lift owner upon completion of maintenance work.

Lift Owner

- Save digital copy of e-checklist for records purpose.

Back Office

- Real time progress monitoring on dashboard
- Facilitate allocation of manpower resource during contingency
- Enhance communication clarity between field and back office
- Reduce risk of errors and oversights
- Provide visibility to maintenance activities and site condition
- Digital records provides better accountability
- Eco-friendly

"From the obvious **elimination of paper usage**, it has benefitted our operation across various tasks and levels. It also supports our **on-going efforts for greener initiatives** and fight against climate change by reducing overall carbon footprint. The **CTC grant** has been the stimulus to help us bridge the gap and **motivates us embrace the technological advances** that are available. Ultimately, we can provide a **higher quality of services** and **satisfaction to our clients**."

User Feedback

Reviews

Published in
AMEU Anniversary Magazine Celebrating 43 Years of Vibrancy

"It is very useful as it helps to **save time** for us as Lift Specialist. We can do the checklist right after servicing. Plus, we **don't have to do the manual checklist which is just tiring.**"

Mr Abdul Rizuan
Lift Specialist Grade 3

"The tablet enables us to collate updated data regarding the lift maintenance components. We, as Lift Specialist, are made aware of the items which needs to be serviced. **The tablet opens up for future potential uses.**"

Mr Muhammad Syabil
Lift Specialist Grade 3

"With the tablet, we are able to do daily upload of the checklists and site condition photos. We are **more productive** and do not need to waste paper. The E-checklist is also **neater and more organised.**"

Mr Muhammad Shafiee
Lift Specialist Grade 2

Dear Sir/Madam

REMOTE MONITORING AND DIAGNOSTICS SOLUTIONS FOR LIFTS - AMENDMENTS TO THE BUILDING MAINTENANCE AND STRATA MANAGEMENT (LIFT, ESCALATOR AND BUILDING MAINTENANCE) REGULATIONS

BCA issued a circular on 29th July 2022 to inform the industry to support the implementation of Remote Monitoring and Diagnostics Solutions in lifts.

Objective

This circular informs the industry of changes made to the Building Maintenance and Strata Management (Lift, Escalator and Building Maintenance) Regulations 2016 (the “LEBM Regs”) to support the implementation of Remote Monitoring and Diagnostics (“RM&D”) solutions in lifts.

RM&D Solution

Remote Monitoring & Diagnostics Solution

A system that enables real-time monitoring, fault detection and diagnostics to ensure efficient and proactive maintenance work.

Potential Benefits to Stakeholders

Lift Owner

24/7 Online Monitoring

Continuous monitoring of lifts performance offering peace of mind.

Quarterly Maintenance

Reduces the frequency of service interruptions.

Improve Reliability

Real-time data from the lift enables immediate detection and resolution of issues

Improve Availability

Potential problems are identified early, allowing for more targeted preventive maintenance work.

Service Team

Knowledge on-the-go

Make informed decisions quickly, even while on the move

Lift Contractor Management

Data-Driven Insights

Valuable insights of lift performance to refine maintenance strategies

Sustainable Manpower

Alleviate the challenges of maintaining a large work force

Call Center

Automated call registration

Ensures that all calls are accurately recorded and tracked

Better Resources Allocation

Specialist can be deployed where they are needed most, improving response times

Service Team

Improve Productivity

Streamlined approach allows service team to manage workload efficiently

Challenges Ahead

Slow Market Adoption Rate

High Cost of Maintaining the Systems

Data Security & Privacy

Looking Forward

Enhancing Efficiency and Productivity

Leaner and More Efficient Workforce

Progressive Adoption of AI,
Enhancing Predictive Capabilities and
Business Intelligence
